WORK EXPERIENCE

Software Tester   May 2023 - Present

National Life Group, Dallas, TX

- Conducted thorough testing and integration of new products, riders, and enhancements within the web-enabled system to ensure seamless implementation.
- Reviewed and provided feedback on product reports, UI integration & calculation specifications.
- Wrote and modified UI design spec documentation to ensure consistency between test planning and Jira support.
- Provided hands-on support to production users by assisting with illustration execution, and addressing inquiries related to product functionality.

UX Designer (contract)   Nov 2022 - Dec 2022

Rivera Money - Remote | Project link

- Worked with a design team to create client's DeFi web application for investment managers.
- Successfully and efficiently collaborated with stakeholders, ensured smooth communication with the client, and performed on-time project handover.
- Complete deliverables include: Competitive analysis, two iterations of wireframe designs, high-fidelity prototype, style guide, and usability testing feedback.

Data Manager   Jun 2021 - Feb 2022

Leyendecker Transloading Services, Laredo, TX

- Managed all inventory of materials via a warehouse management system.
- Collaborated with dispatchers internationally to coordinate shipping times as well as ensure that all safety protocols were met.

Sales Consultant -   Mar 2020 - Aug 2020
Independent Contractor

Southwestern Advantage, Nashville, TN | Summer Internship

- Established success principles through direct door-to-door sales.
- Prospected and approached over 2,500 families of various socio-economic backgrounds.
- Executed all ordering, inventory, scheduling, sales, and deliveries.
- Conducted over 1,000 sales presentations during the summer.
- Attended over 100 hours of advanced sales leadership training.
- Relocated to Georgia for 4 months.

UI/UX PROJECTS

Wake Up Call - mobile application
Project Link

- Designed a full-length mobile application for users that struggle to wake up by providing interactive solutions.

Post Up - mobile application
Design sprint: Project link

- Designed the primary red routes for a mobile application called PostUp which is tailored to help remote workers find public locations to get work done.
